

## **T.E.E.N. Industry Partnership to receive \$210,000 to Support Local Transportation & Logistics Companies**

NEW CASTLE, PA – November 24, 2009 – The Transportation Education and Economic Network is set to receive \$40,000 in Industry Partnership funds and \$170,000 in Worker Training funds. The Partnership consists of Transportation and Logistics companies, economic and workforce development entities, education and training providers and labor partners throughout the 17 counties of Northwest Pennsylvania. To learn more about the T.E.E.N. Industry Partnership and careers in Transportation and Logistics, you can visit their website at [www.TEENIndustryPartnership.com](http://www.TEENIndustryPartnership.com).

Industry Partnerships are instrumental in connecting workforce education and training programs to the critical needs of industry and strengthen the education and skills of workers to help businesses remain competitive in the global economy. Statewide, more than 6,000 companies are involved in 72 active industry partnerships, in which businesses, workers and representatives from industries work together to improve their competitive position in the marketplace.
